PERSONAL PROJECTS

Shopping program for communications (12/2021 - 01/2022)

- I created two complete applications using Apple's Swift programming language. One was designed for merchants, while the other was tailored for customers. I linked them all together using a single API, leveraging numerous modern and inspired libraries and techniques to enhance performance and capabilities.

ACHIEVEMENTS

Store Manager (12/2016 - 08/2018)

I was promoted during the trial period at Al-Haddad Company from a salesperson to a showroom manager.

Siri Support (12/2021 - 01/2022)

I created an app for my brother who owns a mobile device store, enabling him to generate revenue through alternative non-traditional means
